MIDLAND M ZERO PLUS**C1169.01**

The new "M" series of the Midland CB radios is extended with another model: **M ZERO PLUS**.

It is the main brother of M ZERO, since it operates in both **AM** and **FM** modulation.

M ZERO PLUS is a **40 channel AM/FM** CB radio characterized especially for its **extremely reduced size** and for its **ease of use**. It's the ideal equipment for those who want a simple radio at low cost but equipped with all main functions required by a CB.

M ZERO PLUS has been developed with **SMD technology** to be a state-of-the-art equipment.

The installation is very easy and quick thanks to the supplied **cigarette lighter plug**.

The **UP/DOWN** controls allow the channel selection and the long pressure of one of these lets the channels scroll quickly.

M ZERO PLUS is also equipped with the CH-EMG control to immediately select the **emergency channel** or a **priority channel previously set by the user**.

COMPLYING TO 99/05/CE

What's in the box:
