KW505 – Watt-SWR Meter C1165

KW505 is a new **Watt-SWR Meter** useful to verify the correct tuning of the antenna and the proper functioning of the radio connected to the antenna.

Specifications:

- SWR: 1:1/1:3
- RF Power: 1W/10W/100W
- Impedance: 50 ohm
- Frequency: 3.5-150MHz
